CHAIRMAN'S LETTER

Dear Shareholders,

Warm greetings to you all!

FY-12 has been a year of consolidation for Piramal Glass.

Our Company continues to move forward on its vision of global leadership in specialty glass packaging (flacconage). This year was a year of investment with investments in relining of furnaces and also a green field project. This brings our capacity in cosmetics and perfumery segment to about 550 tons per day making PGL's capacity second largest in the world.

The Company's consolidated total operating income for the year grew by 13.5% to ₹ 14077 million.. The operating profit before interest depreciation and tax (EBITDA) grew by 9% to ₹ 3335 million The EBIDTA to total operating income was 23.7% a as compared to 24.7% last year. The net profit for the year was ₹ 1,084.6 million

Indian operations continues to focus on Cosmetics and Perfumery (C&P) sector with around 60% sales coming from C&P, with an emphasis on premium segment. We have successfully executed multiple projects for marquee global brands from India this year. Sri Lankan operations have maintained focus on efficiency and capacity utilization through better product mix and reported an EBITDA of 33% inspite of cost escalation.

USA continues to focus on Specialty Food and Beverages (SF&B) segment and will continue to act as a funnel for sourcing manufactured products from India for the C&P segment. This year around 21% of USA sales were from products produced in India. Even in the US one of the two furnaces underwent relining in Q3 hence production capacity was constrained.

Due to capex in FY12 (expansion and relining), debt has gone up from ₹ 9,199.9 million To ₹ 11,432.2 million, Debt to equity ratio was at 2.8.

Cosmetics & Perfumery Division:

Cosmetics & Perfumery business grew by 17% from ₹ 6,026 million to ₹ 7,052 million. We are now servicing most of the leading international C&P companies and the focus is on gaining share of wallet which includes international marquee brands. We are now recognized as a quality glass packaging vendor for the perfumery industry globally.

With a view to further enhance C&P sales during the year we converted 75 TPD Amber furnace (for Pharmaceuticals) to 55 TPD flint furnace for C&P. In FY-12, we have commenced a greenfield project for setting up a low cost mass furnace of 160 TPD, which is operational from April 2012. The enhanced capacity will help in increasing the market share of C&P

Pharmaceutical Division :

PGL continued to focus on high value added products in the pharmaceutical glass packaging market, in the process rationalizing products and markets in favour of exports with a view to increase profitability. During the year the largest pharma furnace 230 TPD with 6 lines underwent relining and was converted into 255 TPD with 8 lines

Specialty Food and Beverages Division :

PGL focuses on manufacturing high value SF&B bottles from our operations in USA & Sri Lanka. This segment clocked a sale of ₹ 3503 million as compared to a sale of ₹ 2740 million in FY11,

Knowledge Action Care :

In line with our corporate values of "Knowledge, Action & Care", we have been working on several initiatives of Employee Engagement as well as a formal process of Manufacturing Excellence. The initiative of measuring Employee Engagement with the help of the world renowned PCI Coffman continues this year with most of our locations reporting leading edge performance in Employee Engagement. It is a matter of great satisfaction that the Company as a whole reported a 4.46 (on a scale of 5) rating which is 99th percentile in the global PCI Coffman survey. Piramal Glass has achieved 99th percentile for 3rd year in a row. We believe that the empowerment of our employees is one of our key factors of success and helps realise our vision of global leadership.

I sincerely thank all our customers, employees, suppliers, bankers and shareholders for their confidence and support.

Warm regards,

Ajay G. Piramal

- Specialty Food & Beverages is estimated to be US\$ 1.3 - US\$ 1.5 billion, growing at 5%-7%

Cosmetics & Perfumery Business:

The glass containers manufactured in Cosmetics & Perfumery are used to fill nail polish, perfumes, skin care creams, foundations, attars, etc. The main raw materials for glass manufacturing are semi snow quartz, soda ash, lime stone powder.

This market is broadly classified into five segments depending on the end bottle price.

- | | | |
|--|---|----------------------------|
| <ul style="list-style-type: none"> ▪ Select ▪ MNC - Mass | } | Clubbed as Premium Segment |
| <ul style="list-style-type: none"> ▪ Low Mass ▪ Skin Care ▪ Nail Polish or Colour Cosmetics | } | Clubbed as Mass Segment |

PGL enjoys a global market share of ~ 6% and is the only significant player from Asia with presence in the Premium segment.

Pharmaceuticals Business:

It caters to the requirements of Pharmaceutical Industry for packaging like molded vials for injectibles and bottles for syrups, droppers and infusions. In the Indian market, PGL enjoys a leadership position with about 35% market share.

Specialty Food and Beverages Business:

The uniquely designed and colored glass containers are used to fill boutique wine and high-end liquor products.

Growth Drivers

Cosmetics & Perfumery (C&P)

The Cosmetics and Perfumery Division of Piramal Glass caters to international marquee customers like LVMH, Yves Rocher, YSL, Coty, Unilever, Revlon, L'Oreal, P&G, Elizabeth Arden, Estee Lauder etc. apart from specialized localized manufacturers like Dumak LLC, Erkul Kozmetic, Compagnie De Diffussion, Niasi, Expak, Baralan International, Estico Ltd., Revolline Ltd. These customers use the glass bottles and jars for products like nail polish, make-up foundations, perfumes, skin care creams etc.

Traditionally, the C&P glass bottles market has been dominated by European players like SGD, Pochet, Gerresheimer, Heinz, Zignago, Bormioli Rocco and Bormioli Luigi. Most of these players have been in existence for more than a hundred years.

This industry is characterized by capital as well as manual intensity (although manufacturing is highly automated, operations like forming, sorting and decorations are skill based and manual intensive).

PGL is the youngest player in this segment. It entered into this segment in 2000 with foray into nail polish market, and later low mass perfumes. Within a few years of entering, PGL became a dominant player in the nail polish glass bottle market globally. Today PGL dominates this segment. It more than makes 1 out of every 2 nail polish bottles manufactured globally (PGL manufactured 1.85 billion pieces in FY12)

In 2007, after achieving leadership position in Nail Polish and Mass Perfume markets, under a long term strategy initiative, PGL entered the Premium Segment of C&P and today this segment is the prime focus of the company. In terms of capacity Piramal Glass has the second largest installed capacity globally (545 TPD) and currently enjoys a global market share of ~ 6% (sales of ₹ 7,052 million). Investment in capacities, leveraging skills from our USA operations, leveraging skills of technical experts from Europe coupled with focus on world class business processes through Manufacturing Excellence initiative has helped the PGL to attain this position

PGL, is the fastest growing player in this segment, with a growth of 18.4% CAGR (5 years) compared to market growth of 3-5% globally. The greenfield project coupled with relining furnaces in C&P will help in catering to the growing demand and moving a

step closer to the vision of “Top 3 flaconage manufacturers in the world” (greenfield project of 160 TPD in Jambusar and capacity up-gradation of existing furnaces for Premium as well as converting 75 TPD from Pharma into C&P)

The drivers, for growth of PGL have been increased cost consciousness among western customers coupled with boom in consumption of C&P in emerging economies due to growing young population, higher percentage of working women and increasing disposable income, resulting in a spurt in C&P sales in emerging economies, particularly the BRIC countries (Brazil, Russia, India and China), Middle East and Turkey (where mass market manufacturing is concentrated)

These factors have resulted in PGL getting recognized as a respectable glass manufacturer from Asia, as an alternate supplier. Successful execution of initial projects by PGL has helped PGL in gradually winning a higher percentage of the share of wallet from existing customers – which is the main area of future effort and focus, as most of the leading perfumery companies are already our customers.

Looking back, we can say that we were newcomers when we started manufacturing nail polish in 2000. Since then, we have made rapid strides to become a leading nail polish player. This growth story is being replicated in the perfumery space. In short, PGL is poised to become a leading global supplier of C&P glass bottles in the world, and is already making rapid strides in that direction.

Pharmaceutical:

The Pharmaceutical glass container division manufactures amber bottles, amber and flint vials for liquid oral formulations, injectibles, etc. Products manufactured conform to US, Indian and European pharmacopeia in Type I, Type II and Type III formulations. PGL is a leading supplier of glass containers to both multinational and Indian pharmaceutical companies like GlaxoSmithKline, Pfizer, Cipla, Abbott, Alembic, Ranbaxy, E-Merck, Aventis, Dabur, Himalaya drugs, Dr. Reddy's Laboratories etc.

In FY-12, this segment continued to see competition in the form of replacement with PET especially in the Oral formulations and amber glass bottles in the range of 60 ml to 100 ml. PGL has focused on export markets, mainly USA, and currently 39% of PGL Pharmaceutical division comprises of exports.

The high-end Borosilicate Glass (or Type-I Glass) market has been an attractive growth segment for PGL, particularly for exports to USA as also “deemed exports” in India as more and more injectibles manufacturing facility in India receive US FDA approval.

Specialty Food & Beverages:

The Specialty Food & Beverages division provides bottles for wine, liquor and food which are often unique in design and decoration. This business is very freight intensive and hence localized. Piramal Glass is catering to this segment from Sri Lanka and USA. PGL has consciously grown in exports from Sri Lanka, earlier mainly to India, and today to Far East and Australia. In Sri Lanka the strategy has been to migrate to more and more premium customers. In USA, focus is on winning new customers and new brands in the Speciality Liquor segment.

Since the US acquisition, we have gradually been able to increase our sales in this segment through acquisition of new customers and retaining old ones. USA operations have edge over its European competitors due to lower freight. PGL caters to global customers like Diageo, Pernod Ricard, Cadbury Schweppes, UB Group, etc.

Strategy Summary

1. Continued focus on C&P segment and the growth in capacity and skill will help the company in growing both in Premium as well as Mass segment. The growth will also be fuelled by continued efforts to transition some of the C&P production from the USA facility to India
2. Improvement in product mix and geography mix for Pharmaceutical segment
3. In Sri Lanka and USA, focus on growth in Speciality bottles segment.

Power & Energy:

Power and Energy costs increased by 25.7% to 2,368.7 million as compared to 1,884.4 million in FY11. The increase has been in India and Sri Lanka, because of hike in prices of Natural Gas / Furnace Oil and Electricity. PGL India constituted a major portion of this increase, because major supplier increased prices by ~ 25% during FY12.

Piramal Glass managed to offset a greater part of the price increase by better energy management as well as spot buying of gas, in addition to better product mix and pass-thru to customers through price increase.
