8. Mechanisms to prevent adverse consequences to the complainant in discrimination and harassment cases.

In adherence to regulatory mandates, the PEL Group has instituted a whistle blower mechanism and created a corresponding Whistle Blower Policy ("Policy") to provide a structured and secure framework for responsible and secure whistle blowing/ vigilance. The policy, influenced by the Group's philosophy of Knowledge, Action and Care, supports the Group in upholding high moral standards, financial integrity, transparency, and good governance in its business operations.

Directors, employees, customers, and all other stakeholders have the ability under the Policy to report concerns about unethical behavior, actual or suspected fraud or violation of the Code of Conduct or Policy. We support and encourage anyone with legitimate concerns about suspected misconduct to voice these concerns without fear of retaliation or unfair treatment. The PEL Group understands some violations may dissuade open communication from employees. Therefore, this Policy serves as an additional communication channel, supplementing the regular management hierarchy, so that all employees, irrespective of their position, can express their concerns.

The mechanism provides for safeguards against victimization of whistle blowers who avail of this mechanism and provides for direct access to the Whistle Blower Committee or Investigating Officer / Internal Audit / Independent Firm appointed by the Whistle Blower Committee of the Company. However, this does not release the employees from their duty of confidentiality in their course of work nor can it be used as a route for any Malicious Complaints.

The Policy covers all malpractices and all unethical, illegal or improper activities which have taken place / suspected to have taken place, including but not limited to abuse of authority, negligence causing substantial and specific danger to public health and safety, financial irregularities including fraud or suspected fraud, criminal offence, perforation of confidential / proprietary information, misappropriation of company funds / property, breach of Code of Conduct and any other unethical or immoral or illegal events.

All protected disclosures under the Policy are documented and thoroughly investigated by either an Investigating Officer/Internal Audit/ Independent Firm appointed by the Whistle Blower Committee. Investigations are neutral fact-finding processes, not accusations, and investigators must maintain fairness, objectivity, and ethical behavior while abiding by legal and professional norms.
