\* Includes Non-controlling Interest

**Mr. Ajay Piramal, Chairman, Piramal Enterprises Ltd. said**, "The Company delivered a resilient performance despite the global COVID-19 impact. Pursuant to significantly strengthening our balance sheet, we are now progressing on the next round of major transformations across both Pharma and Financial Services businesses.

Firstly, we are changing our Financial Services business model from one that is wholesale led to a welldiversified one; this also being one of the key objectives behind our bidding for DHFL. We are in parallel, making strides towards creating a large differentiated listed Pharma company, post the growth capital raise from The Carlyle Group, through both organic as well as inorganic investments. These are focused steps towards a shift from a multi-sector conglomerate structure into one with focused listed entities within the Pharma and Financial Services sectors.

As these two businesses march forward on their clearly defined strategic roadmaps, I believe that both have the potential to emerge as two strong companies that will have significant runway for value creation for all stakeholders."
