

## PRESS RELEASE

# Piramal Pharma Solutions Launches *ADCelerate*, a Rapid, Integrated Approach to Taking ADCs to IND

- *ADCelerate delivers Phase I appropriate antibody-drug conjugate (ADC) drug substance and drug product for Investigational New Drug (IND) submission*
- *Accelerates timelines, enabling faster delivery to patients in the clinic*
- *From project initiation to GMP drug product in as few as 12 months*

**Mumbai, India | October 12, 2022:** Piramal Pharma Solutions, a market-leading, patient-centric Contract Development and Manufacturing Organization (CDMO), announced the launch of *ADCelerate*, a new, branded solution for antibody-drug conjugate drug development that accelerates timelines for developing the initial clinical supply of both drug substance and drug product.

With *ADCelerate*, Piramal Pharma Solutions (PPS) delivers fully developed manufacturing processes for antibody-drug conjugate drug substance and lyophilized drug product, all within as few as twelve months. The program includes qualified, Phase I appropriate analytical methods to support batch release and stability studies for both drug substance and drug product, as well as initial stability data on drug substance (six months) and drug product (one month).

**Peter DeYoung, Chief Executive Officer, Piramal Pharma Solutions** said, “As a CDMO serving the biopharma industry, we recognize that speed matters. Getting our clients into the clinic as quickly as possible without compromising quality supports our ethos of patient centricity. *ADCelerate* is a strong example of this principle brought to life. By leveraging our capabilities and expertise in ADCs and sterile fill/finish, we are able to shorten timelines while maintaining the highest standards of quality.”

The accelerated timelines that *ADCelerate* delivers are made possible by PPS’s vast experience in antibody-drug conjugate problem solving, as well as the company’s expertise in manufacturing lyophilized drug product. While based on a standard process, all *ADCelerate* programs are customized to the scope of each client’s project.

#### **About Piramal Pharma Solutions:**

Piramal Pharma Solutions (PPS) is a Contract Development and Manufacturing Organization (CDMO) offering end-to-end development and manufacturing solutions across the drug life cycle. We serve our customers through a globally integrated network of facilities in North America, Europe, and Asia. This enables us to offer a comprehensive range of services including drug discovery solutions, process & pharmaceutical development services, clinical trial supplies, commercial supply of APIs, and finished dosage forms. We also offer specialized services such as the development and manufacture of highly potent APIs, antibody-drug conjugations, sterile fill/finish, peptide products & services, and potent solid oral drug product. PPS also offers development and manufacturing services for biologics including vaccines, gene therapies, and monoclonal antibodies, made possible through Piramal Pharma Limited’s investment in Yapan Bio Private Limited. Our track record as a trusted service provider with experience across varied technologies makes us a partner of choice for innovator and generic companies worldwide.
